First Office Action on the Merits

Priority

1. Acknowledgment is made of applicant's claim for foreign priority based on an application filed in Japan on October 17, 2001. It is noted, however, that applicant has not filed a certified copy of the foreign application as required by 35 U.S.C. 119(b).

Specification

- w) 2. The disclosure is objected to because of the following informalities: It does not contain a "Brief Description of the Drawings".

Appropriate correction is required.

Claim Rejections - 35 USC § 101

3. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

- w) 4. Claims 1-11 and 18-22 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter.

The instant claims recite "[u]se..". A use is not patentable under 35 USC 101. Therefore, these claims will not be examined further on the merits.

Claim Rejections - 35 USC § 112

5. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

6. Claims 14-17 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 14 recites the phrase "such as" which renders it indefinite because it is unclear whether the limitations following the phrase are part of the claimed invention.

See MPEP § 2173.05(d).

Claim 14 also recites the production of formula I according to claim 12. However, the instant claim does not teach the production of compounds of formula I because it does not teach how the skilled artisan would obtain compounds of formula I as defined by claim 12 from the compounds of formula III defined by the claim.

Allowable Subject Matter

7. Claims 12, 13, 23 and 24 are allowed.

8. The following is an examiner's statement of reasons for allowance:

The prior art does not teach or suggest the claimed 17-chloro-D-homosteroids.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
